

In order to provide students with maximum dependability and affordability, WPU has chosen to partner with Tree of Life Bookstores. The partnership with Tree of Life allows students to receive the assigned books in time for the start of the academic year.

Traditional Semester Program Students

Beginning in the 2020-2021 school year, all traditional semester program students (new and continuing) will automatically be enrolled in the Textbook Butler Digital/Rental program at no additional cost.

Students receive their books on-campus during the weekend before classes start each semester and are not required to purchase their course materials on their own. Information is provided on the Tree of Life Bookstores website for students to access books provided digitally.

Students access their textbook information on the Textbook Butler website at <https://warnerpacific.treeoflifebooks.com/>. Questions about your course materials or shipment information can be addressed by contacting the Tree of Life Customer Service staff at 1-888-392-2930.

Students have the choice to opt out of this program until the payment deadline for the semester by contacting the Tree of Life Customer Service staff at 1-888-392-2930 to request the Opt Out Form. Choosing to purchase course materials on your own does not reduce your tuition and fees.

Professional & Graduate Studies (Adult Degree Program)

In order to provide Professional & Graduate Studies (PGS) students with maximum dependability and affordable choices, WPU has chosen to partner with Tree of Life Bookstores. The partnership with Tree of Life allows for two important things: (1) students receive the correct books, on time, automatically, and (2) students may select purchasing options that allow them to better manage their financial resources.

Students in the Professional & Graduate Studies programs are automatically shipped their course materials about 2 weeks before each course starts as part of the Textbook Butler program. Course material charges are added to the student's WPU Student Account when the textbook is shipped. Students have the option of choosing whether they receive New, Used, Rental or Digital books.

Students access their textbook information on the Textbook Butler website at <https://warnerpacific.treeoflifebooks.com/>. Questions about your course materials or shipment information can be addressed by contacting the Tree of Life Customer Service staff at 1-888-392-2930.

Students have the choice to opt out of this program by contacting their Academic Advisor who will work with them to submit an opt out request.
