## My Progress

The 'My Progress' page is a helpful tool in determining where you are in your degree and what you still need to accomplish.

To access this tool go to MyWP and find the Self-Service Menu. Click on 'Academic Planning', and then 'Student Planning'.

Once you are on the Student Planning page you will find in the first box a link that says 'Go to My Progress'.

This will take you to your Progress page. This page will tell you your current GPA and what degree/program you are enrolled in.

For example, this student is looking to complete a BS in Biological Science.

To the right you will find 3 progress bars. The first one is your overall progress towards your degree and the second is your total amount of credits. This student has completed 16.71 credits total.

The last one is the amount of credits completed at Warner, this is a helpful tool for transfer students.

As you scroll further down the page you will find each requirement listed out for you. It will tell you what you are missing, what you are currenting taking, and what you have completed. The core requirements are at the top of the page, and the major specific requirements are listed further down the page.

Hitting 'Expand All' or 'Show Details' on a specific category will show each requirement.

All requirements are color-coded to make it easier for you to read. Red requirements still need to be completed and green requirements have been completed or are in progress. The Urban Life requirement is an example of a requirement that has been completed. If we click on the link titled "Show details", we can see that this requirement is being met by a transfer course in Principles of Sociology.
