WARNER PACIFIC UNIVERSITY

Bachelor of Science in Nursing (BSN) Professional Licensure Disclosure

Traditional Pre-Licensure BSN

Program and Licensure Information

Warner Pacific University's Bachelor of Science in Nursing (BSN) is a traditional, in-person, pre-licensure nursing program. Students who successfully complete all BSN program requirements are eligible to sit for the National Council Licensure Examination for Registered Nurses (NCLEX-RN). Completion of the BSN program and passage of the NCLEX-RN do not, by themselves, guarantee eligibility for RN licensure; each state or jurisdiction establishes its own licensure requirements and makes individual licensing decisions.

Oregon: Warner Pacific University's BSN program is approved by the Oregon State Board of Nursing (OSBN), and WPU reports that the program has full state board approval through 2030. Therefore, the program is identified below as meeting the educational requirements for RN licensure in Oregon, subject to the OSBN's individual applicant requirements.

Students planning to seek RN licensure outside Oregon should review the requirements of the applicable state or territorial board of nursing before enrolling and again prior to applying for licensure. Licensure requirements may include education, examination, background checks, jurisprudence requirements, fees, or other conditions that are outside the University's control.

Licensure by Endorsement (Reciprocity): Nurses initially licensed in Oregon who later seek RN licensure in another state or jurisdiction may be eligible to apply for licensure by endorsement, subject to the requirements of that jurisdiction. Oregon is not currently a Nurse Licensure Compact (NLC) state. For current state-specific licensure guidance, visit NCSBN Nurse Licensure Guidance. For information about multistate licensure, visit the Nurse Licensure Compact.

National Council of State Boards of Nursing (NCSBN): Board of Nursing Licensure Requirements / Board Directory

State-by-State Determination

Status definitions:

Meets: WPU has determined that the BSN curriculum meets the educational requirements for RN licensure in the jurisdiction.

No: WPU has determined that the BSN curriculum does not meet the educational requirements for RN licensure in the jurisdiction.

Doesn't Meet: All other states and jurisdictions listed below

Meets: Oregon

Nursing regulatory agency links are based on the National Council of State Boards of Nursing (NCSBN) U.S. member directory. Puerto Rico is linked directly to the Puerto Rico Department of Health Nursing Examining Board. Agency requirements and links may change; students should verify current requirements directly with the applicable regulator.

Student Responsibility and Notice

Professional licensure requirements are established by individual states and jurisdictions and may change without notice. Warner Pacific University strives to provide current and accurate information; however, students are responsible for confirming the requirements of the jurisdiction in which they intend to seek licensure. Students should contact the applicable licensing board directly for the most current requirements.
